

ASCE/AGC Meeting Summary

Week 3: Regionals and Career Searching

January 27th, 2023

This meeting recap is intended to allow all ASCE/AGC members to stay up to date with the events that take place during our weekly meetings!

Announcements:

1. The Building the Connections event is coming up soon on February 5th! Come network with employers in a low-stress environment. For more information, please email Benji Rizzi at brizzi@mines.edu.
2. ASCE regionals are fast approaching! **We are still looking for members for the Sustainable Solutions competition.** If you are interested, contact Ryan Irvine at ryanxirvine@mines.edu.
3. Join us next week (Friday 2/3) for a presentation about tunneling with Kiewit. Bring your dues if you haven't already!
4. Follow us on Instagram: @asce.mines

Civil Engineering Fun Fact of the Week:

With a structural height of 1,104 feet, the Millau Viaduct located in France is currently the world's tallest bridge. It was built to relieve congestion between Paris and Spain, and a route was chosen across the Tarn river valley. It took an impressive \$424 million to construct over three years.

Today's Presenters: Emmy with Fortis Structural

This week's presentation was about ASCE regionals and career searching. Some of the topics covered include:

- Designing and creativity involved with concrete canoe
- Variety of regionals competitions to choose from
- Getting involved early as a freshman/sophomore
- How to network in the civil industry

Thank you to our presenter, Emmy Tran! If you have any questions about topics addressed or would like to reach out for more information, contact her at etran@fortisstructural.com.

Enjoy your weekend!

Respectfully,

Riley Miller, ASCE-AGC Secretary, Spring 2023
