

## ASCE/AGC Meeting Summary

### Week 2: Summer Internship Presentations

September 1<sup>st</sup>, 2023

This meeting recap is intended to allow all ASCE/AGC members to stay up to date with the events that take place during our weekly meetings!

#### Announcements:

1. Join us next week (Friday 9/8) from 12-1 pm in Hill Hall 202 to hear from Benesch
2. Collecting Dues First few weeks \$10 a Semester
  - a. First Semester Members' Dues Waived
3. Building The Connection is on September 10th from 4-7 pm in Kafadar Commons
  - a. Talk to Jeremiah to sign up
4. Follow us on Instagram: @asce.mines

#### Civil Engineering Fun Fact of the Week:

In 1770, to differentiate himself from military engineers, John Smeaton was the first to proclaim that he and what he did was, in fact, civil engineering. As the accepted father of civil engineering, he experimented with different kinds of concrete mixes, which have significantly influenced the use of building materials in construction today.

## Today's Presenters:

This week's presentation featured multiple presentations from ASCE officers about the summer internship experiences. Below are some topics covered:

- Jeremiah Woollenweber worked for Kiewit on widening a remote highway in Montana by staking and utilizing G.P.S. to survey the site.
- Inga Almgren shared her experiences with Kimley-Horn, along with her experiences with working in CAD to create diagrams. She also participated in a company intern day in Phoenix, AZ.
- Andrew Hurter spoke about his internship with R.E.Y. Engineers and his experiences with marking utilities utilizing LiDAR, as well as creating project alternatives in CAD.

Enjoy your weekend!

Respectfully,

Andrew J. Hurter IV, ASCE-AGC Secretary, Fall 2023
