MEETING & EVENT GUIDANCE

The SAIL Office is working hard to make sure student organizations are still able to function safely and effectively during this time. We are continually monitoring the state and local guidance as well as the current state of Mines testing. All of these factors impact the Meeting & Event Guidance, and we will continue to update as necessary.

The most up to date guidance is attached or can be found on the front page of the SAIL website or orgs.mines.edu.

FALL BREAK
EVENTS & HAPPENINGS

There's plenty of reasons to stick around over Fall Break (Oct 17-20) this year! It is important we all do our part to stay healthy and limit our exposure to large groups and gatherings, and the Mines bubble is helping us do just that. See below for a long list of events you can participate in from gold mining to mug decorating to a medieval battle with Belegarth. More information will be coming out soon!
